

Off lease Inspections

Applus+ can offer vehicle manufacturers, fleet management companies, car rental companies and financial firms a customized and robust solution for inspecting the condition of the leased vehicle before it goes back to market.

DESCRIPTION

Challenge

With any used car, there will always be wear and tear; some cars will be exposed to more wear and tear than others, off-lease and off-rental vehicles are no different. Applus+ has numerous years of experience in the field of vehicle inspection and can provide leasing companies, fleet management companies and financial institutions with a complete inspection of the vehicle when it is returned at the end of the vehicle's lease period.

Solution

When rental vehicles reach the end of their leasing period, Applus+ can offer vehicle manufacturers, fleet management companies, car rental companies and financial firms a customized and robust solution for inspecting the condition of the leased vehicle so that all damage and defects are highlighted for repair before the vehicle goes back to market. Through the use of mobile devices, Applus+ can customize the inspection to the client's requirements, capturing real-time accurate damage analysis of the vehicle. As soon as the inspection is completed, the client has immediate access to the data.

We can provide assurances to the client that they receive fair and impartial service, specifically customized to their needs. Applus+ can also ensure that off-lease inspections are conducted in a timely manner so that costs are kept to a minimum, thus reducing the downtime before getting the vehicle back to market for resale.

Benefits

The main benefits for choosing Applus+ services for off-lease inspections include:

- Customized flexible solutions specific to the client's requirements
- Worldwide presence
- Cost-effective solution
- Real time data management and immediate availability of detailed electronic reports for the client once the inspection is complete
- Secure solution
- Previous inspections
- Fair and impartial inspection
