

# Vehicle Condition Inspection

Applus+ can offer manufacturers complete peace of mind by inspecting a vehicle and all its elements before it leaves the manufacturer's workshop to go on the consumer market.

## DESCRIPTION

### Challenge

Within the automotive industry, it is extremely difficult for vehicle manufacturers to get it right all the time; on numerous occasions we hear the word recall, which in truth can lead to exceedingly high costs for manufacturers.

### Solution

Applus+ can offer an independent and comprehensive inspection examining such areas as:

- Vehicle Interior and Exterior Damage Analysis
- Quality Assurance
- Electrical Faults
- Simulator Faults

### Benefits

Upon completion of the inspection, a detailed report is produced highlighting the main findings of the inspection.
