

Vehicle Condition Inspection

Applus+ can offer manufacturers complete peace of mind by inspecting a vehicle and all its elements before it leaves the manufacturer's workshop to go on the consumer market.

Challenge

Within the automotive industry, it is extremely difficult for vehicle manufacturers to get it right all the time; on numerous occasions we hear the word recall, which in truth can lead to exceedingly high costs for manufacturers.

Solution

Applus+ can offer an independent and comprehensive inspection examining such areas as:

- Vehicle Interior and Exterior Damage Analysis
- Quality Assurance
- Electrical Faults
- Simulator Faults

Benefits

Upon completion of the inspection, a detailed report is produced highlighting the main findings of the inspection.
